

Bristol Radiator Covers

... the finishing touch for your home

Bristol Radiator Covers
A Division of Radius Woodworkers

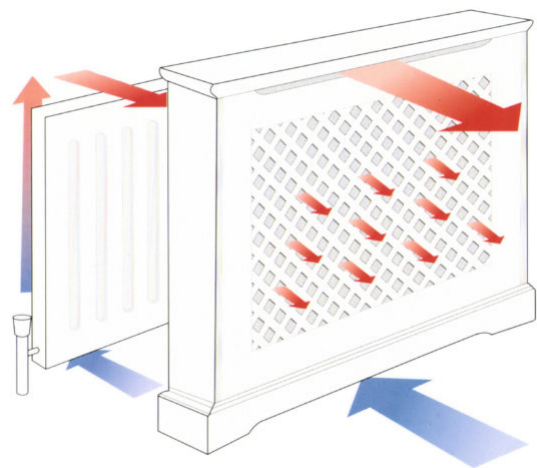

Triple panel radiator cover in dark oak, with brass diamond grille. This dual purpose cover also acts as comfortable window seat.

Transform your home with Bristol Radiator Covers

Radiators perform a necessary function in any home, but why not make them a feature? A Radiator Cover has the potential to completely transform the look and feel of your room, by hiding away those ugly radiators. Give your home an instant makeover...

Gain space, gain a shelf

Are radiators taking up your valuable wall space? Never enough surfaces in your home to display the things that make it uniquely yours? Not only will our radiator covers enhance your home, looking more attractive than a bare radiator, but you will be gaining a useful shelf for ornaments, photographs, candles, books, or vases of flowers.

Heat efficiency

Bristol Radiator Covers are designed to maximise heat efficiency, with the air gap at the bottom and the vent at the top allowing for natural convection, directing the warm air towards the centre of the room, rather than the air going straight up the wall towards the ceiling as with an uncovered radiator.

Safety first

Bristol Radiator Covers have a low surface temperature, protecting against the possibility of radiator burns, a consideration if there are children or elderly people in your home.

Durable and practical

Our radiator covers are stable under heat and humidity and will not warp. The front panel is easily removable for access to the valve.

Wide selection

We produce a wide range of purpose-built cabinets and grilles with a variety of finishes that will suit all styles of home, whether classic or contemporary. Our made-to-measure cabinets are available in mahogany, oak, cherry, and maple finishes, with other timber finishes to special order. They can also be painted in any colour required, which means that when you decide to redecorate, you can simply paint your cabinet to match. Whether painted or timber finish your cover has a convenient wipeable surface. There is a large selection of styles and grilles to choose from, and we can also supply "one-off specials" to match your existing furniture.

We produce a wide range of purpose-built cabinets and grilles with a variety of finishes that will suit all styles of home, whether classic or contemporary.

Double panel mahogany veneer radiator cover with 1½" brass diamond grille.

Single panel ash radiator cover with stainless steel mesh and ash glazing bars.

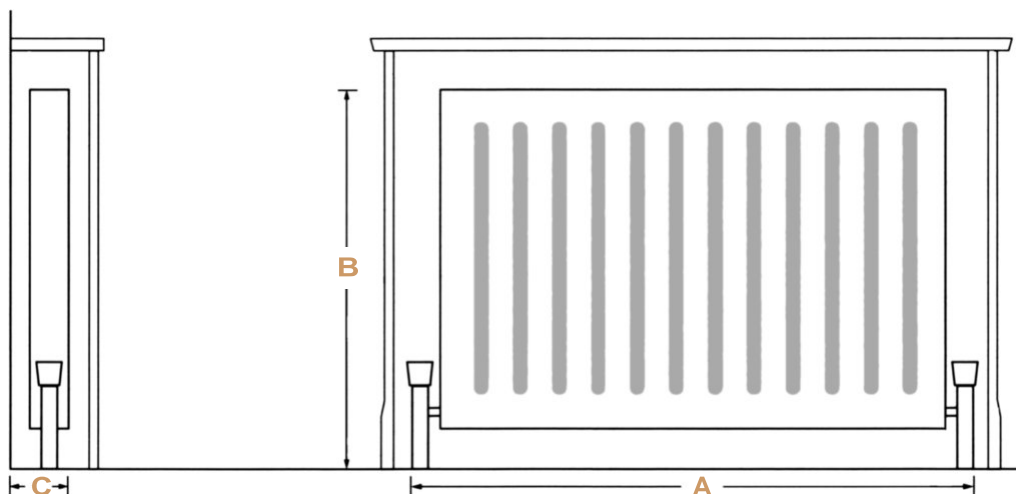

Double panel painted radiator cover with perforated stainless steel grille.

Measuring guide

Follow these simple steps to determine the size of your radiator cover. Then refer to the price list below to get an idea of the price.

- A Measure the total width of the radiator, including valves**
- B Measure the height from the floor to the top of the radiator**
- C Measure the depth from the wall to the front of the radiator**

These are the only measurements we require. We will add on the required clearance around the radiator; normally we add on 25mm on all sides and 50mm on the top. We will contact you to confirm measurements.

Price List

The following prices use a cover of 850mm height as an example. All prices include VAT.

Here's what some of our customers have to say about our products and service...

"The installation was completed in half a day and created little dust or mess because the professional carpenter had taken accurate measurements and the unit had been built off-site and delivered ready to fit. He even painted the new screw holes with stain to give the antique effect! The window seat/radiator cover looks as if it has always been there. It is greatly admired as it matches our fireplace surround which helps to create the period style look." **Carol Tilley**

"Many, many thanks for your marvellous work. We will always appreciate it." **Andrew and Rachel**

"We had an unsightly room heater in our sitting room. An elegant custom-made cover from Bristol Radiator Covers has turned an eyesore into a feature." **Sally Wellman**

"Thank you for a superb job." **Dick Brunton**

Experienced Craftsmen

Bristol Radiator Covers is a division of Radius Woodworkers; our craftsmen have been designing and making domestic furniture for nearly 30 years.

Bristol Radiator Covers is a division of Radius Woodworkers. The business occupies converted old stone barns located in the village of Barrow Gurney, just South of Bristol. Please see map and directions on the following page.

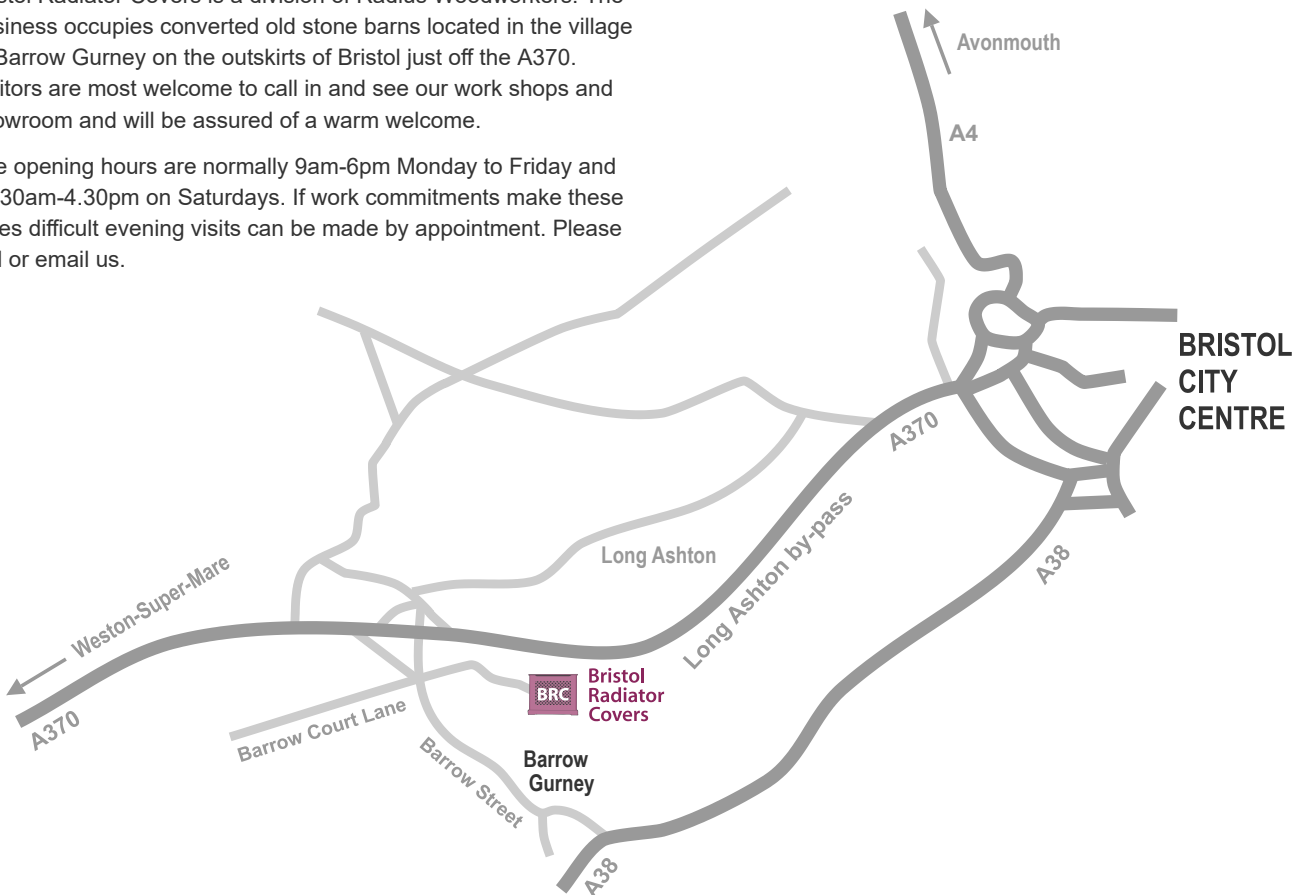

Radiator cover with a double panel painted cover with a painted single overlaid lattice. This radiator cover hides an unsightly radiator in an otherwise elegant room.

How to find us

Bristol Radiator Covers is a division of Radius Woodworkers. The business occupies converted old stone barns located in the village of Barrow Gurney on the outskirts of Bristol just off the A370. Visitors are most welcome to call in and see our work shops and showroom and will be assured of a warm welcome.

The opening hours are normally 9am-6pm Monday to Friday and 10.30am-4.30pm on Saturdays. If work commitments make these times difficult evening visits can be made by appointment. Please call or email us.
